ABOUT ME

Hello, my name is Jamshed Ali, and I am a passionate Information Technology student aspiring to become a Machine Learning Engineer. My journey in technology has driven me to explore various fields, including front-end development and data analysis, as I continuously learn and adapt to the dynamic tech landscape. I am currently building my expertise in modern programming languages, frameworks, and technologies to create impactful solutions. My interest lies in combining creativity and logic to solve real-world problems through code and design. When I'm not coding or studying, I enjoy to exploring trends in AI, contributing to projects, and expanding my skill set.

RELEVANT SKILLS

- **Python**
  - Python Programmer
- **Web-Development**
  - Front_end developer
- **Data-Analyst**
  - Python, SQL, Excel

MY SERVICE

PYTHON

As a student of Information technology, Python is one of my favourite programming language, I am using python since 2023 till now. So I think I have a good knowledge and skills of python. I want to explore something new, show my skills and get more and more things (skills).

FRONT_END DEVELOPER

I am familiar with html, CSS, and JavaScript and I create some projects as well with the help of html, CSS, and JavaScript. I have about 2 year of experience in Front_end developer with html, CSS and JavaScript, I want to show my skills and explore something new and also improve skills.

DATA ANALYST

Along with SQL and Excel I have python skills and knowledge , I am using python and its libraries since 2023. Specially i learn python for data analysis and I want to get more and more skills and knowledge from you to improve my data analysis skills for future.

EDUCATION HISTORY

- **Matriculation**
  - **Science (2018)**

- **Intermediate**
  - **Pre-Engineering (2020)**

- **Graduation**
  - **Information Technology (2022-continue)**
